--	---

*Drills* (applicable in 1914).

The full number of drills required to be performed annually (for recruits—the total period of recruit drills required in their first year of service), as set forth in Appendix VII. of the Territorial Force Regulations, must have been performed before the annual camp. No relaxation of this condition will be made on the ground of inability (whether from sickness or any other cause) to perform the full number of drills required.

*Musketry* (not applicable till 1915).

The standard of qualification laid down in the regulations (*see* paragraph 580A below) must have been attained in the training year preceding that in which the bounty is claimed, except in the case of men in their first year of training who will not be required to qualify in musketry as a condition of earning the first bounty, but such qualification will govern the issue of the bounty in the second year of service.

It will be noted that this condition will not be insisted on in respect of the bounties issuable at the camp of 1914, but the musketry qualification of 1914 will determine the bounties payable at the camp of 1915.

The following additions will be made to the Territorial Force Regulations of 1912 :—

<p>580A. A bounty of 1<i>l.</i> will be paid at the end of the annual training in camp to each N C.O. and man of the Territorial Force (except Yeomanry, <i>see</i> para. 581)</p>	<div style="border-bottom: 1px solid black; display: inline-block; text-align: center; width: 40px;"><b>A.O. 146.</b></div> <div style="border-bottom: 1px solid black; display: inline-block; text-align: center; width: 40px;"><b>1914.</b></div>

This rule is not applicable to a man in his first year of training, who will not be required to qualify in musketry, as above, as a condition of earning the bounty.

580B. The bounty will be payable to a man who has signified his intention of remaining in camp for 15 days but who is admitted into hospital or is sent home in consequence of a disability not brought about by his own action. In the event of his death the bounty will be payable to his widow or dependent relatives.

580c. The bounty will not be payable to men who are permitted to leave camp on urgent private affairs before completing 15 days' training.

  3. Paragraph 39, lines 2, 3 and 4. *Delete* "Practice".
  4. For paragraphs 60 and 61 substitute—

A.O. 157.  
1914. 60. As far as possible every series will be marked, but the General Officer Commanding or the Camp Commandant, when arranging the programme of practice, may consider that in certain series such factors as extreme ranges, special targets and the small number of rounds available, or the particular nature of the scheme governing the practice, may render the actual fire effect likely to be obtained an unreliable criterion of the training value of practice, and he may, therefore, decide that such a series shall not count for classification. This decision must be made before the programme is issued, and should be considered confidential.

All other series will be marked, and no company can be considered for the award of "Special" unless it has fired and been marked for at least four series.

61. In order to stimulate interest among all ranks in Service practice throughout the year, companies who have reached an exceptionally high standard of efficiency will be classed as "Special" by the General Officer Commanding or Camp Commandant.

To be eligible for consideration for a "Special," a company must obtain a figure of merit '6 in series fired under (B) Fire Effect, and should have obtained a high company figure of merit, say '7.

The figure of merit alone is not to be the sole criterion for the award of a "Special," provided '6 is obtained in series fired under (B) Fire Effect. General Officers Commanding and Camp Commandants must take into consideration the conditions of practice, the weather, ammunition, easy and difficult series, &c.

In the case of companies allotted partly to fixed and partly to movable armament, the General Officer Commanding, in determining the award of a "Special," will take into consideration the practice carried out from both natures of armament.

5. For paragraph 64 substitute—

ment, it will carry out Service practice as laid down in A.O. 157 instructions for Practice Seawards. Companies referred 1914 to in this paragraph must carry out Service practice *continued.* with fixed armament, but need not carry out combined practice with movable armament. If, however, they do take part in combined practice they will only be marked for company practice.

6. *For* Section 18 *substitute*—

65. Companies qualifying for the award of "Special" A.O. 157. will be granted badges, to be worn by all non-com- 1914. missioned officers and men serving with the company on the date the distinction is earned.

66. The clothing depôt supplying the company will supply the badges on receipt of indent from the Officer Commanding, supported by a certified extract, from the Camp Commandant's orders in the case of companies at home, and the orders of the General Officer Commanding in the case of companies stationed abroad.

67. The badges will be worn until the next year's awards are published.
